

Life Lab School Garden Workshops

-Spring 2010 Offerings-

At the Life Lab Garden Classroom on the UC Santa Cruz Farm:

Sowing the Seeds of Wonder: Discovering the Garden in Early Childhood Education - March 27, 2010 - \$150

This one-day workshop gives you the opportunity to see the garden through the eyes of a young child. Learn to set up a garden space to encourage children to explore, ask questions, and connect to the natural world. Learn activities to engage children's curiosity and enthusiasm while introducing fundamental ideas in environmental science.

The Growing Classroom: Introduction to Garden-Based Learning - April 29-30, 2010 - \$300

This two-day workshop is ideal for those interested in supplementing their existing science program with garden-based learning. Using The Growing Classroom activity guide for grades 2-6, you'll experience hands-on activities, learn basic science concepts and gardening techniques, and develop management strategies for a school gardening program.

Plant It, Grow It, Eat It: Garden-Enhanced Nutrition Education - May 14, 2010 - \$150

This one-day workshop will help you make the connection from seed to table. In a fun and delicious way, you will explore ways to teach nutrition to elementary and middle school students through gardening, harvesting, and meal preparation.

1 semester credit of graduate education credit available for an additional \$60/workshop day.

-Life Lab is able to provide a limited amount of financial assistance for educators interested in attending our local workshops. Applications for financial assistance will be considered up to one month prior to each workshop, based on need.-

Bring a workshop to your school or community:

Of our workshop offerings listed above, any one can be specially crafted to fit the interests of your audience. Individualized quotes for workshops are available. Please contact us directly for more information.

To learn more about our workshops, financial assistance, and registration, visit www.lifelab.org/workshops.php or call (831) 459-2001.

Life Lab has trained tens of thousands of educators across the nation!
